Project

OrderPls

This is my personal project, which I am building to test my knowledge of the MERN stack. The website is not for business purposes but solely for my own learning and growth.

Project Idea's

This website is designed for customers, restaurant owners, and employees.

- From the customer's perspective, they can book restaurant seats and select the dishes they want at the time of booking.
- From the perspective of restaurant owners and employees.
 - Owners can grant access to employees, track their activities, and monitor the restaurant's growth.
 - Employees can easily manage customer orders. We have three types of models :

1, Server

2, Chief

3, Billing

Achievement

- Shot Put Player
- Javelin player

Experience

Star Health Insurance

- I am working as a CRO (Claim Relationship Officer) there.
- It is a semi-voice process where we solve customer problems and queries.
- The semi-voice process can be quite challenging.

Reason

The policyholder spends a lot of money on insurance. In some situations, the insurance company may not provide the payout for certain reasons. In such cases, we need to explain the terms and conditions of the policy and inform the customer of the reason for the claim rejection.

EVI Software Services Private Limited

- I have been working here for the past 6 months.
- It is a software company, and I am playing the role of a MERN Stack Developer.

My role in the Company

My career at this Company started with creating basic prototype's using HTML and CSS for the Frontend. I learned a lot to grow my Knowledge in JavaScript, React.js, React Router, basic Redux, SVN, and Git. Now, I am able to code both the Frontend and Middleware with the help of React.js. In the Frontend, I can manage Components, Functions, Hooks, and Validations. In the Middleware, I can Constructing response data and Destructing request data. I find it quite interesting that I can handle both the frontend and middleware in the short period. Over the last four months, I have spent a lot of time coding at this company, which has allowed me to progress quickly.

MMC Enterprises

- I have been working at this company for last 6 months.
- It is a Finance company, and I am playing the role of a MERN Stack Developer & React Native.
- I am currently in a Team Lead (TL) position here

My role in the Company

At MMC Enterprises, my role involves leading the development team as a Team Lead (TL), specializing in both MERN Stack and React Native technologies. I am responsible for designing and building scalable web and mobile applications that support the company's financial operations. This includes developing features for daily money collection, tracking field agents, automating account calculations, and generating audit reports. I also coordinate with team members, manage project timelines, and ensure that our solutions meet the business requirements effectively.
